sound

5-1/2 not bad

X= delivery
points

∴ Vehicle seems to move from point to point along a
route of pre-planned route "dropping off" a "delivering"
something of interest. Objects "delivered" are metal, rounded,
long, & contain both liquid & solid materials which
don't mix. Yellow is associated with objects

Route seems to be closed - i.e. terminating at origination
point, almost as if objective is to enclose certain area of
terrain. Route goes uphill & down hills, across water, etc.

terrain is tundra/prairie, but with ^{low} vegetation & trees
scattered here & there.
